

Travel information

Dear Madam, dear Sir,

It is with great pleasure we welcome you in Ghent. We are delighted to have you in our clinic as our guest, and we shall do our utmost effort to make your stay in Ghent enjoyable.

Upon your arrival in Brussels Airport (Zaventem), there are two ways to travel to Ghent :

By Train

Brussels Airport has its own railway station (BRUXELLES-NAT-AIRPORT). Trains to GENT-SINT-PIETERS leave on a regular base. There is a direct connection (85 min) and a connection with one change of trains in BRUXELLES-MIDI (59 min).

For detailed information and ticket fares, visit <http://www.b-rail.be/E/index.php>.

Upon arrival in GENT-SINT-PIETERS we advise to take a taxi to your destination (Hotel, B & B or hospital). Taxis are waiting at the main exit on your right. If necessary, you can contact us on phone number +3292525903 or secretariaat@heup.be

By Taxi

Upon request, we can arrange a pick up at the airport (taxi-limousine) that brings you directly to your destination in Ghent. Do not take a local taxi, they are expensive and are not used to drive in Ghent. We have a contract rate with **Company** : 9€ (from Brussels Zaventem to Ghent) and 1€ (Brussels South - Charleroi to Ghent) including 30 minutes waiting time.

Please pay this amount upon arrival by cash or credit card to the cab driver, it is not included in the price for the surgery.

You can contact **Company** by email (Company@heup.be)

The driver will be waiting for you at the arrival hall, carrying a sign with your name on it. In case you need to inform **Company** regarding flight delay, please contact H&S DRIVE LIMO at : Phone: **+32 (0)499910375** Email: **hsdrivelimo@gmail.com**

If you require any additional information, please contact us !

**AZ JAN PALFIJN
GENT**

HOSPITAL INFORMATION

The Jan Palfijn hospital, where the operation is performed, is about 1,9 kilometer from the **Marriott Hotel** (korenlei 10). By foot it takes around 20 minutes, by car 10 minutes.

The hospital has almost 1000 employees and 130 medical doctors. For the surgery department (including orthopaedics) there are 119 beds reserved.
